PT Aurora Polaris Digital — Jakarta, Indonesia

ABOUT US

Built to bring clarity, not complexity.

Polaris is Indonesia's diagnostic-first IT consultancy based in Jakarta. We're an all-female, Indonesia-based team genuinely invested in our clients' growth. We find the real problem before building anything.

> *"We're not another tech agency selling packages.*
> *Most businesses don't have a technology problem — they have a clarity problem."*

Too many Indonesian businesses get sold technology they don't need. They build something, but it doesn't solve the actual problem. The technology works — it just isn't the right technology for the real issue.

Technology that empowers growing Indonesian businesses — from diagnosis to deployment. One trusted partner for every solution your business needs. When you work with Polaris, you get a partner who cares about your outcome — not just the invoice.

OUR VALUES

Four principles that guide every decision we make.

01

Clarity

We give you direction when everything feels unclear. You always know where you're headed and why.

02

Integrity

We tell you the truth — even when it's hard. No sugarcoating, no hidden agendas, no jargon.

03

Precision

Every solution is built to fit exactly what you need — not a template, not a guess. Exactly right.

04

Growth

We're not here to just fix today's problem. We're here to make sure you're genuinely better for it.

HOW WE WORK

Diagnostic first.
Three steps to clarity.

01

Business Health Check

Start with a Business Health Check. 3 days. A clear written report. And finally, direction. We diagnose what's really holding your business back — we find the real problem before proposing any solution.

FREE

02

Prioritized Roadmap

Your report includes a 90-day action plan. We present multiple options — including ones that don't involve hiring us — because the right solution matters more than the sale.

INCLUDED IN REPORT

03

Build & Grow Together

If you choose to work with us, we implement. Websites, content engines, full business automation — whatever your roadmap calls for. And we stay with you as your long-term technology partner.

ONGOING PARTNERSHIP

OUR SERVICES

One partner.
Every solution.

Website Development

Your digital storefront, built right. We design, develop, and deploy websites on modern infrastructure (Vercel) — fast, secure, and scalable. Every site comes with analytics baked in.

Website Only

Development and deployment, hosted on Vercel. You bring your own domain or go without.

Website + Domain

We handle everything including domain registration. Available TLDs: .com, .co.id, .id, .sch.id, .ai, .io, .dev, and more.

Application Development

Custom applications built for your specific needs — from concept to deployment. Native or cross-platform mobile apps for iOS and Android. From simple utility apps to full-featured business tools.

Mobile Application

Native or cross-platform mobile apps for iOS and Android, tailored to your business requirements. Includes UI/UX design, development, testing, and deployment to app stores.

OUR SERVICES

SEO & Content Creation

Your brand's visibility, powered by AI and guided by strategy. We optimize, create, and manage content that drives traffic and builds trust.

SEO Optimization

Technical and on-page SEO to improve your search rankings. Keyword research, site speed, meta tags, structured data, and ongoing optimization.

SEO Blog Writing

SEO-optimized articles researched and published to your site. Each with custom imagery and keyword targeting to drive organic traffic.

SEO Audit

Comprehensive analysis of your site's SEO health. Technical issues, content gaps, competitor benchmarking, and a prioritized action plan.

Social Media Branding

Brand identity for your social presence. Visual templates, tone of voice guidelines, bio optimization, and cohesive profile design across platforms.

Social Media Content Creation

Ready-to-post content for Instagram, LinkedIn, TikTok, and more. Captions, images, reels, and hashtag strategy — fully managed.

OUR SERVICES

Business Operation, Others & Packages

Business Operation

Custom internal systems so you can run your business from one place. We build the digital backbone your business needs.

Company Profile

Professional company profile document or deck. Clear, well-designed, and ready to share with clients, investors, or partners.

Financial Reporting

Live dashboards, automated financial statements. Always know your numbers — no more manual spreadsheets.

CRM & Lead Management

Track every lead, automate follow-ups, never lose a prospect again. See your entire sales pipeline at a glance.

Payroll & HR Attendance

Employee management, attendance tracking, automated payroll calculations. Your HR in one click.

Others & Custom

Beyond our core categories — if you can describe the problem, we can build the solution.

- Data Analysis / Data Science
- Online Invitation
- Slide / PowerPoint Creation
- Custom Projects

Packages

Bundled services at a better price. Pick the combo that fits.

- Full Business Suite (CRM + Finance + HR)
- Social Media Content + SEO Blog
- Website + SEO Blog Writing
- SEO Optimization + SEO Blog

SEO Growth Dashboard

SEO & Content — 957K Clicks Achieved

WHY POLARIS

What makes us different.

- **Diagnostic-first**
  We start by listening, diagnose the real problem, then build what actually fixes it.
- **One Relationship**
  You never re-explain your business to a new person. One team, one partner.
- **Ongoing Partnership**
  We grow with you, not just deliver and disappear. Long-term technology partner.
- **Outcome-driven**
  We care about your outcome, not just the invoice. Results over revenue.
- **AI-powered efficiency**
  We leverage cutting-edge AI to deliver faster, better, and at a fraction of traditional costs.

EVERY PROJECT STARTS WITH

A Free Business Health Check

3 days. A clear written report. A 90-day action plan. No commitment required.

LET'S TALK

Ready to find *your direction?*

Start with a free Business Health Check. We'll diagnose what's holding your business back and give you a clear path forward.
